OCEAN HOUSE

Ocean House is one of Australia's premier beachside homes, designed and built by architect Rob Mills as his own coastal escape.

Featuring Mills' exceptional design and winner of the World Interior News Award, the home spans three levels and provides enormous flexibility as an exceptionally large single residence with potential for an annexe as a separate form of accommodation.

With six bedrooms (and potential for a seventh) a total of five bathrooms, two kitchens and multiple living zones, this phenomenal home commands uninterrupted ocean views to the east and towering eucalypt to the rear of what is the largest residential landholding in Lorne.
